october- 2021

Participated in industrial training BSNL Telecom centre at Karimnagar.

CERTIFICATION

BRINT TECHNOLOGIES BSNL Telecom Centre

PROJECTS

HOME AUTOMATION USING ARDUINO UNO

● Home automation using Arduino is a revolutionary concept that brings the power of technology to our living
spaces, enabling us to control and manage various household functions effortlessly. By seamlessly integrating the
capabilities of Arduino microcontrollers with everyday appliances, lighting systems, and environmental sensors,
home automation offers the convenience of remote control, energy efficiency, and enhanced security.

TECHNICAL SKILLS

Languages: Python, Basics of C language.
Web Technologies: HTML, CSS.
Microsoft office,Power point,Excel.

SOFT SKILLS

● Communication skills.
● Time management
● Good learnability

DECLARATION

I here by declare that all the above furnished particulars are true to the best of my knowledge.
